

KONICA MINOLTA

INTELLIGENT INVOICE PROCESSING

A PAY-AS-YOU USE SERVICE

Konica Minolta's Pay-As-You-Use invoice processing service is unique and combines automation with human and artificial intelligence.

Invoice processing is a mix of manual and automated tasks: a world of high-touch activities, demanding human intervention and absorbing a significant amount of time, money and resources. These overlapping invoice processing tasks are also prone to error, inaccurate payments and potential fraud. Control is a constant battle, whilst opportunities for innovation and change are missed.

It's time to rethink invoice processing.

TAKE CONTROL AND TRANSFORM IN 30 DAYS

Konica Minolta streamlines and accelerates your end-to-end invoice processing. Our approach automates processing, checks and data entry, eliminates errors and exceptions and frees up your resources to focus on adding business value.

30

DAYS TO GO LIVE

You can be live on the Konica Minolta Intelligent Invoice processing in less than one month

Giving Shape to Ideas

TAKE CONTROL OF FINANCE

- 84% of an AP professional's time is spent on transaction processing
- Nearly two-thirds of invoices require manual intervention for exceptions
- Average invoice processing cost is £6/invoice – more once indirect costs are added
- Traditional manual invoice processes are open to fraud

FAST, ACCURATE, COST-EFFECTIVE INVOICE PROCESSING

Our unique Intelligent Invoice Processing platform sets new standards for simplicity and automation, through a combination of artificial and human intelligence and automation to achieve the highest levels of speed and accuracy as well as lowest total cost per invoice.

AN INTELLIGENT INVOICE PROCESSING PLATFORM

New efficiencies: Remove manual entry, intervention and inefficiencies, with a fully-automated pay-as-you use intelligent invoice processing service

Unlock your true potential: Speed up processing, accelerate the number of invoices processed and liberate staff to perform value-add tasks

No capital investment, flexible pay-as-you use options: Enables transparent usage-based pricing and eliminates upfront capital investment

New levels of performance: A unique combination of artificial and human intelligence delivers new levels of accuracy and automation in data capture and processing

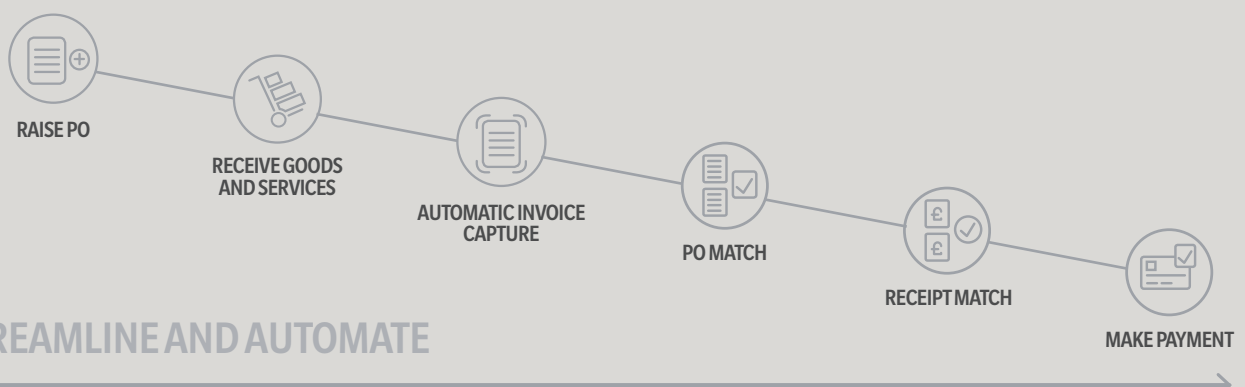

Rapid deployment: Deploy the solution in less than 30 days; no installation with minimal configuration and integration requirements

No IT expertise required: We manage the solution for you including integration with your existing systems, and with training included as standard.

Seamless: Integrates with your existing finance systems

Compliant: Built-in tracking and archiving capabilities for compliance and fraud prevention

Flexible: Out of the box service, which can be tailored to your requirements

KONICA MINOLTA

TRUST KONICA MINOLTA FOR YOUR INVOICE AUTOMATION

Konica Minolta is your trusted partner for invoice automation. We have more than 30 years' experience in supporting UK customers to overcome their toughest challenges. Our broad portfolio of solutions is built for the future of finance: from out of the box software-as-a-service solutions to bespoke solutions and outsourced services. And our extensive end-to-end capabilities – consulting, design, implementation and support – deliver exceptional results rapidly and effectively.

INTELLIGENT INVOICE AUTOMATION IN 30 DAYS

Transformation doesn't need to be slow or painful. By partnering with us you can be live within 30 days. Our invoice processing and automation consultants will work closely with you to understand your finance management needs. They will map the existing processes, identify gaps and provide a comprehensive proposal focusing on people, processes and technology. Your fully managed, configured and integrated solution could be up and running in less than 10 days. This means you can transition to the new service, transform how you process invoices and be fully trained within a month.

IT'S TIME TO RETHINK HOW YOU PROCESS INVOICES

Begin your rapid journey to invoice automation and finance transformation today.
